University of Madras

Sl.No.	Paper	Calculation of Marks for 100
1	Major / Core Theory papers, Foundation Course and other Language papers	(Internal: External = 25 : 75) $$\dfrac{\text{Marks obtained in CIA out of 25}}{25} \quad x \quad 70$$ $+$ $$\dfrac{(\text{Total External Marks obtained in Major / Core or Respective Language Papers in Previous Semester})}{(\text{Total Maximum External Marks in Major / Core or Respective Language papers in Previous Semester})} \quad x \quad 30$$
2	Allied and Elective	(Let Y be the Maximum marks for CIA) $$\dfrac{\text{Marks obtained in CIA out of Y}}{Y} \quad x \quad 100$$
3	Non – Major Elective, Skill based papers and Environmental Studies	
4	Practical Papers	i) If both External and Internal have been conducted, then the actual marks obtained in External and Internal are to be added. ii) If Internal has been conducted and External has not been conducted, then convert the actual internal marks obtained to 100.

1. For Major / Core / other Language Papers, the marks obtained in the papers in pervious semester are to be considered only if the student has passed in those papers.

2. If a candidate scores less than the minimum marks for passing in a subject, then Minimum passing marks shall be awarded to the candidate, in the respective subject.
